PROFESSIONAL SUMMARY

Software Engineer with production full-stack and backend experience delivering features across React, Go, PHP, PostgreSQL, REST APIs, and microservices—including API integration, transactional processing, authentication, GitLab CI/CD deployments, and cross-stack debugging.

Enterprise identity management background (SailPoint, Oracle Identity Analytics) with Agile delivery; targeting Software Engineer, Full-Stack, Backend, Platform, API, React, and Golang roles.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Go, PHP, SQL, HTML, CSS, Shell

Frontend: React 17, Redux, hooks, state management, REST APIs

Backend: Go, GORM, PHP, Node.js, REST, CRUD, microservices, API integration, authentication

Databases: PostgreSQL, transactional writes, Oracle SQL

Cloud & DevOps: GitLab CI/CD, Git, Apache, staging/production deploys, AZ-900

Tools & Platforms: Linux, Agile, Jira, SailPoint, OIA, IDAM, ITIL, BMC Remedy, distributed systems

PROFESSIONAL EXPERIENCE

WiLine — Software Developer

August 2022 – Present | Dublin, Ireland

- Delivered enterprise Vendor Contract Management across React, Go, and PHP microservices—multi-type workflows, Redux state management, REST CRUD APIs, and PostgreSQL/GORM transactional writes.
- Built secure Go–PHP server-to-server integration (API keys, Basic Auth) and standalone file endpoints; resolved cross-stack production bugs across JavaScript, Go, JSON, and API layers.
- Operated GitLab CI/CD for React, Go (Linux cross-compile), and PHP releases to test and production; maintained full-stack PHP/React/PostgreSQL apps and Node.js tooling in Agile teams.
- Shipped Customer Satisfaction Voting System (React/PostgreSQL) and internal automation utilities to staging and production.

Wipro — Application Engineer

April 2019 – July 2022 | Dublin, Ireland

SailPoint | 2020 – 2022

- Resolved IAM defects via Jira with unit/integration/UAT testing; implemented fixes using Git, Eclipse, and XML; supported UAT cycles and ITIL/BMC Remedy change control.
- Coordinated batch operations with Unix shell scripting, PuTTY, and WinSCP across dependent teams.

Oracle Identity Analytics (OIA) | 2019 – 2020

- Integrated OIA resources with Oracle SQL; performed server-side testing and Linux/NFS health validation after patches.

Host Ireland — Network Engineer

September 2018 – March 2019

Provisioned customer IP networks and configured Juniper routing; resolved help-desk connectivity incidents.

EDUCATION & CERTIFICATIONS

BSc Computer Science — Dublin City University

August 2013 – May 2017 | Dublin, Ireland

Certifications: Microsoft AZ-900 (Azure Fundamentals), TOGAF 9 Certified
